Solarfeeds.com is home to leading solar equipment suppliers serving the Argentinian market. Just get in touch with us through our inquiry page. We've got you covered. Argentina has several ports through which you can receive imported equipment. It also boasts of a healthy logistics services framework.

What is a microinverter solar system?

Typically, microinverters are “distributed” inverters. Solar PV systems with microinverters have a small inverter installed for each individual solar panel. Instead of sending energy from every panel to a single inverter, microinverters convert the DC energy to AC energy on the roof itself.

Who makes solar charge controllers & inverters?

Solar Charge Controllers With over 4 million products sold in over 100 countries since 1993 — functioning in some of the most extreme environments & mission-critical applications in the world — Morningstar Corporation is truly “the leading supplier of solar controllers and inverters.”.

Is Argentina a good solar market?

Argentina is arguably one of the most interesting solar markets at the moment. The South American nation's solar sector has grown by leaps and bounds over the last three years. By the end of 2020, it had an installed solar capacity of 759 Megawatts. This figure is shocking considering that Argentina's solar capacity stood at 8 Megawatts in 2017.
