Solomon Islands Communications Green Base Station Enterprise

Overview

How many 3G/4G base stations are there in the Solomon Islands?

The project plans to construct 161 3G/4G wireless communication base stations on 35 major islands in the Solomon Islands' nine provinces. The construction, to last for three years, started on Aug. 28, 2023, with the first telecommunication tower launched on March 22 in Sali village. (Xinhua/Zhang Jianhua) By Zhang Jianhua, Zhang Na.

When did Solomon Island become a telecom Commissioner?

Solomon Island's first Telecom Commissioner took office in January 2010. As part of its reform process, in September 2011, following public consultation the TCSI brought into effect a 6 EDGE stands for Enhanced Data rates for GSM Evolution, and high-speed 3G technology that was built on the GSM standard. Communications.

Does Solomon Islands have a telecommunication policy?

Although a World Trade Organization member, Solomon Islands has made no telecommunication commitments under the General Agreement on Trade in Services.

Why is Internet not available in Solomon Islands?

Internet access remains unaffordable for most Solomon Islanders due to the country's total dependence on costly, limited satellite connectivity, and the lack of competition. For this reason the future availability and affordability of mobile data services will be vital to the growth of broadband internet in Solomon Islands.
