

South African energy company uses 1MW solar-powered container

Overview

Are large energy storage projects coming to South Africa?

It's great to see more large energy storage projects coming online in South Africa. Just 2 months ago, Eskom unveiled another large battery storage project. Eskom's Hex site is specifically designed to store 100MWh of energy, enough to power a town such as Mossel Bay or Howick for about five hours.

How many MW will South Africa's solar power plant deliver?

With an installed solar capacity of 540 MW of PV, and a battery storage capacity of 225MW/1,140MWh, the plant is designed to deliver 150 MW of dispatchable power from 5 am to 9.30 pm year-round to the national grid under a 20-year power purchase agreement with South Africa's national power utility company, Eskom.

How far is Eskom's energy storage project from Norway to South Africa?

The extensive project involves more than 9,000 kilometers of cabling, equivalent to the distance from Norway to South Africa. It's great to see more large energy storage projects coming online in South Africa. Just 2 months ago, Eskom unveiled another large battery storage project.

Is Scatec ready to generate electricity in South Africa?

We are ready to generate electricity and play a vital role in advancing South Africa's green energy production with this innovative hybrid energy solution," adds Fourie. Scatec holds 51% of the equity and H1 Holdings, our local Black Economic Empowerment partner, owns the remaining 49%.
