

Storage Light Pure Sine Wave 60v to 220v Inverter

Overview

This pure sine wave inverter, launched in 2025, supports a wide range of dc input voltages including 12v, 24v, 48v, and 60v. it reliably outputs standard 220v/50hz ac power, making it ideal for use in electric vehicles, rvs, campers, and other similar scenarios. The appearance is designed with a high-strength engineering plastic shell and aluminum alloy heat sink, taking into account both protection and heat dissipation efficiency. the weight is controlled within 1.5kg, and the portability is excellent. The core advantage lies in the use of high-frequency inverter technology, which produces a pure and stable output waveform, making it suitable for sensitive appliances such as air conditioners, electric drills, and induction cooktops. The maximum output power can reach 3000w, and it is equipped with multiple intelligent protection functions such as overload, overvoltage, undervoltage, short circuit, and overtemperature. the security performance is reliable.
