

# **Tender Price for Wind-Resistant Folding Containers for Wastewater Treatment Plants**

## Overview

---

What is a containerised portable waste water treatment plant?

A containerised portable waste water treatment plant gives clients the option to relocate it onsite or easily transport it to new sites as necessary. In addition to that, the systems are modular so that they can work together in a variety of combinations effectively dealing with variable waste water volumes to achieve any effluent quality.

What is an intelligent containerised waste water treatment plant?

Intelligent containerised waste water treatment plants are ready to use immediately on delivery. A containerised portable waste water treatment plant gives clients the option to relocate it onsite or easily transport it to new sites as necessary.

What is a modular containerised sewage treatment system?

The modular containerised system with the various components of a waste water plant is customised to meet customer's requirements and can be easily transported by land and sea. As all the sewage treatment equipment is preinstalled and factory tested, onsite installation work is limited and basically Plug & Play.

What is containerized wastewater treatment?

This is where containerized wastewater treatment is practical. These innovative systems are housed within standard shipping containers, making them: Compact and portable: They require minimal space and can be easily transported wherever needed. A standard 20-foot container can hold a system capable of treating wastewater for dozens of people.
