

# **The latest completion date of Lithuania energy storage project**

## Overview

---

What is a new energy storage project in Lithuania?

The plan involves direct grants to support investments in the deployment of at least 1,200 MWh of new energy storage systems across Lithuania. The tender will be administered by the Environmental Project Management Agency (EPMA). The deadline for applications is June 17, 2025.

Will EU grant a battery storage project in Lithuania?

Will Lithuania install 800 MWh of energy storage facilities?

In the procurement exercise, Lithuania is seeking to install at least 800 MWh of energy storage facilities, which will be directly connected to the transmission network by the end of 2028.

Why is Lithuania launching a major energy storage procurement exercise?

Only a day before cutting ties with the Russian power grid, the Baltic state announced the launch of a major energy storage procurement exercise. Lithuania has announced a EUR 102 million (\$ 105 million) energy storage tender in a bid to procure balancing services to the transmission system operator and ensure the resilience of its grid.
