

# The prospects of EK energy storage batteries in Porto Portugal

## Overview

---

How much money will Portugal spend on energy storage projects?

This included six projects from Spain's Iberdrola, which secured nearly EUR 20 million in public funding. Portugal's Ministry of Energy has announced that it has allocated EUR 100 million (\$104.2 million) to 43 energy storage projects which should be installed by the end of 2025.

How will industrial-scale innovation impact the battery industry in Portugal?

The industrial-scale implementation of these innovations would allow other prospects in Portugal to be exploited, channelling, in part or totally, their production to the battery sector and likely increasing reserves up to 225 kt ( ).

#### 4.4. Policy considerations.

How many projects were selected in Portugal's 2025 energy storage procurement?

A total of 43 projects were selected from 79 applications in Portugal's 2025 energy storage procurement. This included six projects from Spain's Iberdrola, which secured nearly EUR 20 million in public funding.

Should Portugal produce battery-grade Li-compounds?

Therefore, the production of battery-grade Li-compounds in Portugal would aid the EU in lessening its dependence on external sources for this strategic metal, assisting as well in increasing the domestic supply of raw materials for battery manufacturing. Portugal has been the sole European lithium producer since 2011 (USGS 2024).

## The prospects of EK energy storage batteries in Porto Portugal
