

# The role of the container substation in Southeast Asia

## Overview

---

What is Southeast Asia's container port system like in 2021?

In 2021, Southeast Asia's container port system handled >110 million TEUs, making it one of the world's most dynamic and busiest public port systems. Nine of the region's ports are among the top 50 largest ports globally. The container volume of the ports in the region has grown steadily, with positive growth rates recorded.

What are the challenges and opportunities for Southeast Asia's container ports?

Challenges and opportunities for Southeast Asia's container ports In 2021, Southeast Asia's container port system handled >110 million TEUs, making it one of the world's most dynamic and busiest public port systems. Nine of the region's ports are among the top 50 largest ports globally.

Why are container ports important in Southeast Asia?

Container ports in Southeast Asia play a crucial role due to the region's increasing economic significance and strategic position in the global trading system (Nguyen, Woo, Beresford, & Pettit, 2020). Many of these ports serve as transshipment hubs, facilitating the movement of goods between different countries and regions.

What happened to container ports in Southeast Asia in 2022?

Over the period from 2017 to 2022, there was a decrease in concentration in the container port system in Southeast Asia as small and medium-sized ports in Vietnam gained market share from major ports such as Singapore, Port Kelang, and Laem Chabang.
