

# **Togolese communication wind power base station manufacturer**

## Overview

---

Which wind turbine manufacturers dominate the world?

As the world accelerates its shift toward clean energy, the competition among wind turbine manufacturers is at an all-time high. Leading wind power turbine manufacturers like Vestas (Denmark), Siemens Gamesa (Spain), Goldwind (China), and GE Vernova (France) continue to dominate global markets with massive installed bases and expanding order books.

Who makes wind turbines?

German firms such as ENERCON and Nordex, as well as China's Mingyang Smart Energy and Envision Energy, are also key players shaping the future of wind power. This ranking highlights the top 15 makers of wind turbines worldwide, according to their installed capacity as of October 2025. 1.

Who makes Suzlon wind turbines?

1.10. Suzlon Group Suzlon is one of the largest wind turbine manufacturers in the world, with a global footprint spanning 21 GW of installed wind capacity across 17 countries on six continents.

How many wind turbine blade production lines are there?

The company has three wind turbine blade production bases with 18 production lines. While a complete inspection and testing system (for raw materials, components, and full-size blades) ensures safety and reliability, an international design and development team is responsible for the lightweight product design.
