

# U S PV Inverter Production

## Overview

---

What is the global PV inverter market size?

Based on product, the global market has been categorized into central PV inverters, string PV inverters, micro-PV inverters, and others. String PV inverter accounted for the largest market share in 2021 and is projected to grow at the highest CAGR of 6.05% to reach USD 8,814 million during the forecast period.

How a solar PV inverter is transforming energy production?

As per the analysis by the IMARC Group, the solar PV inverter is undergoing several changes to revolutionize energy production, maximize revenue, decrease environmental impact, and improvise product reliability and efficiency.

Who is the largest PV inverter supplier in the world?

SUNGROW is the largest supplier of PV inverter systems in the world. Danfoss was recognized as the Strategic Partner Supplier in 2017, topping the award received in 2016, for being a Distinguished Supplier in this field.

Where are GE vernova inverters made?

GE Vernova's utility-scale inverters are to be manufactured in the company's Pittsburgh facility, an aim to address critical supply chain challenges and strengthen U.S. energy independence. The move from the company's overseas operations to the U.S. is part of a planned \$10 million investment to expand the facility over the next two years.
