

UK solar container battery Cabinet

Overview

Why should you choose a solar battery storage system?

All of our battery options, both pre-assembled and DIY, utilise reliable LiFePO4 technology, which ensures long-lasting performance and peace of mind. With this advanced technology, you can be confident that your solar battery storage will serve you reliably, day after day, for many years to come.

Why should you choose eco-ESS external battery & inverter enclosures?

Protecting your battery storage systems outdoors has never been easier with Eco-ESS External Battery & Inverter Enclosures. Designed for durability and security, these enclosures actively shield your energy storage solutions from harsh weather, temperature extremes, and external damage.

What is a battery enclosure?

These enclosures are equipped with thermostatically controlled heating and cooling systems, ensuring your batteries remain within optimal temperature ranges, regardless of external weather conditions. Our enclosures complement our Semi-Solid State Batteries and Solinteg Inverters.
