

UPS battery cabinet completed base station

Overview

Where are the cabinets in the UPS system placed?

Each cabinet in the UPS system is placed in its final installation location. The UPS (Uninterruptible Power Supply) and MBC (Main Battery Cabinet) must be installed on a level floor suitable for computer or electronic equipment. The MBC (Main Battery Cabinet) is bolted to the floor for permanent installations. All conduits and cables are properly routed to the MBC.

How to choose UPS battery cabinets?

Furthermore, the cabinets need to offer removable hinged doors so that the UPS system can be easily accessed. Doors need to be locked for safety and security. UPS Battery Cabinets have to be designed to house most front terminal batteries. Your UPS Battery Cabinets should have removable side panels so that cables can be easily installed.

Does unified power offer battery cabinets?

Unified Power offers a complete line of battery cabinets for both UPS and Telecom Applications. These cabinets can be configured to match OEM cabinets and offer a competitive option for system upgrades or new projects. Features Space saving foot print is the industry's most compact design.
