

Uninterruptible Power Supply Equipment Studio

Overview

Do you need a power ups for a studio?

However, in the cases where power is applied to the studio equipment (primarily the computer), they will afford the professional (and amateur) time to save projects and power down equipment properly to avoid lost data and damage to expensive equipment. A UPS can be purchased at any step of building a studio.

Are uninterruptible power supplies necessary in audio recording/mixing/mastering studios?

Uninterruptible power supplies aren't necessarily essential in audio recording/mixing/mastering studios.

How powerful is a PowerChute ups?

This UPS is very powerful. It can keep up to 1,800 watts of power going for 3 minutes and 16 seconds in the case of a blackout. Finally, it is a smart unit that can be controlled via a network connection, and it's fully compatible with the company's InfraStruXure Manager and PowerChute software.
