

Uninterruptible Power Supply in Djibouti

Overview

Will Djibouti achieve 100% electricity by 2030?

The first wind farm project in Djibouti, representing a significant milestone for the country on its path towards achieving its goal of 100% electricity from renewable sources by 2030.

How does the electricity supply in Djibouti work?

Electricité de Djibouti (EDD) determines the feasibility and specifications of a connection to the electricity supply, as well as the connection fees. Following the inspection, the quote is transferred internally from the secretariat to the service manager, and then to the customer service department.

Who is developing a wind farm in Djibouti?

The wind farm project is being developed by the Africa Finance Corporation, FMO (the Dutch Development Bank), Climate Fund Managers and Great Horn Investment Holdings through Red Sea Power, a company incorporated in Djibouti to develop, construct, own and operate the project.
