

Uninterruptible power supply vehicle in Gothenburg Sweden

Overview

How is Gothenburg shaping the new battery industry?

In Gothenburg we are shaping the new battery industry. In the coming years Gothenburg and West Sweden will have in place two battery gigafactories, with major investments being made by public and private actors, including Volvo Cars and the Volvo Group. The region is set to become an important hub for both battery development and production.

Why did Sweden appoint Business Sweden for a big battery plant?

Last week, the Government decided to task Business Sweden with strengthening the coordination of efforts to set up large battery plants as part of the automotive industry's green transition. "The automotive industry is important to Sweden's economy and competitiveness and is key to Sweden being a leader in the transition.

Why is Volvo Cars building a new plant in Sweden?

The Swedish location of the plant, which will be built in Torslanda, Gothenburg offers benefits in terms of a direct route into Volvo Cars' largest car plant, access to infrastructure, a strong pipeline of renewable energy supply and relevant job competences, as well as its proximity to both Volvo Cars' and Northvolt's R&D units.

How is Gothenburg reskilling the battery industry?

Reskilling and upskilling initiatives for the region's new battery industry are also underway. Among them is a unique education and training centre which has opened in Gothenburg, specifically for the battery value chain. Around 7,000 people will be trained in state-of-the-art facilities between 2024 and 2029.
