---

How much do solar panels cost in Victoria?

The cost of installing solar panels in VIC varies depending on system size, installation complexity, and brand choice. As of October 2024, homeowners in Victoria can expect to pay around \$4,150 for a 4kW system, \$4,630 for a 5kW system, \$5,200 for a 6kW system, \$6,070 for a 7kW system, and \$7,850 for a 10kW system.

Are solar panels a good investment in Victoria?

Victoria's solar market has grown rapidly due to generous state rebates and rising electricity prices. Whether you're in Melbourne, Ballarat, or regional VIC, solar panels are a smart investment. Benefits include: Check out our full range of solar panels to compare top systems for your home. 2. Best Solar Panels for Victorian Homes.

Is Victoria a good place to install solar panels?

Even with fewer sunny days than northern states, Victoria is a great place for solar with state government rebates complementing federal incentives for residential solar installations. With Victoria's Solar Homes Program providing some of the most generous rebates in Australia, installing solar panels is more affordable than ever.

Why are there so many solar installers in Victoria?

With the great benefit of solar panel systems with the state government rebates, more and more of the homes in Victoria are opting for solar power. This has resulted in a steep increase in the demand of solar installers in Victoria. The concentration of solar systems is mainly seen along the coastal line of Victoria starting around Melbourne.
