

Vienna home solar power generation system

Overview

What is Wien energy?

With its citizens' power plants, Wien Energie gives private individuals the opportunity to make a collective investment in clean energy. Wien Energie is in charge of operating the photovoltaic plants.

When did Vienna start supplying carbon-free energy?

Vienna's first citizens' power plant opened on 4 May 2012 on the premises of Donaustadt power station, and Wien Energie has been expediting the expansion of the model ever since. Over 30 solar and wind plants are already supplying the city with carbon-free energy.

How many solar and wind plants are there in Viennese?

Over 30 solar and wind plants are already supplying the city with carbon-free energy. The thousands of local investors and the continued high levels of interest in the model demonstrate the Viennese public's strong commitment to climate action.

What is the citizens' power plants project?

The citizens' power plants project launched by Vienna's municipal energy provider Wien Energie allows everyone to participate in the development of eco-friendly electricity generated by solar photovoltaic panels.
