

# Vienna solar Power Station Generator

## Overview

---

Why should you choose a solar power plant in Vienna?

Our solar power plant in Vienna's Liesing provides the optimum environment in the city for species requiring protection. Our citizen solar power plants allow people to financially participate in PV systems, benefiting from a secure investment and favourable tariffs.

When did Vienna start supplying carbon-free energy?

Vienna's first citizens' power plant opened on 4 May 2012 on the premises of Donaustadt power station, and Wien Energie has been expediting the expansion of the model ever since. Over 30 solar and wind plants are already supplying the city with carbon-free energy.

What is Wien energy?

With its citizens' power plants, Wien Energie gives private individuals the opportunity to make a collective investment in clean energy. Wien Energie is in charge of operating the photovoltaic plants.

What is Vienna's first solar roof?

Vienna's first solar roof is made with special bifacial glass-glass solar modules which generate power from the top and the bottom. The city development area VIERTEL ZWEI is home to Vienna's first energy community allowing residents to trade self-generated solar power. Wien Energie offers district cooling on hot days.
