

# **What is the latest energy storage policy in Brussels**

## Overview

---

What is the energy storage project in Belgium?

The main energy storage project in Belgium is the construction and operation of an offshore “energy atoll” (essentially a manmade offshore pumped-storage facility), for which the Electricity Act has been modified in 2014 (see below), in order to support offshore wind-generated electricity production.

What is Belgium's energy policy?

With the publication of the Belgian Federal, Flemish, and Walloon government agreements, Belgium’s energy policy has taken shape, emphasising pragmatism, energy security, industrial competitiveness, and a clear return to nuclear power.

Is Belgium a good place to invest in battery storage?

Belgium is one of the most active and mature grid-scale energy storage markets in Europe, with diversified opportunities for monetising battery storage via flexibility markets and a supportive regulatory regime.

How much battery storage does Belgium have?

Belgium’s battery storage buildout remains modest relative to peer nations. As of 2023, the country had under 200 MWh of operational large-scale battery capacity, compared to over 2 GWh in the UK and more than 1 GWh in Germany.

## What is the latest energy storage policy in Brussels

---

ENGIE, NHOA Greenlight 320 MWh Battery Storage (BESS) ...

6 days ago · ENGIE and NHOA have confirmed a partnership to build a 320 MWh battery energy storage system (BESS) at Drogenbos, Brussels. This project is ENGIE's third battery storage ...

---

Belgium to allow plug-in solar panels, battery storage

Sep 13, 2024 · Synergrid, the federation of Belgian electricity and gas transmission and distribution system operators, will soon allow solar panels and household battery energy ...

---

Energy storage regulation in Belgium , CMS Expert Guides

Apr 24, 2018 · The main energy storage project in Belgium is the construction and operation of an offshore "energy atoll" (essentially a manmade offshore pumped-storage facility), for which the ...

---

Brussels 15 billion energy storage

Is Belgium a good place to invest in battery storage? Belgium is one of the most active and mature grid-scale energy storage markets in Europe, with diversified opportunities for ...

---

Construction starts on 440MWh of Tesla battery storage in Belgium

Jan 20, 2025 · BSTOR and Energy Solutions Group have started building BESS projects totalling 440MWh of capacity in Belgium, using Tesla Megapacks.

---

Construction starts on 440MWh of Tesla ...

Jan 20, 2025 · BSTOR and Energy Solutions Group have started building BESS projects totalling 440MWh of capacity in Belgium, using Tesla ...

---

Belgian energy policy 2025: Federal, Flemish, and Walloon ...

Oct 2, 2025 · With the publication of the Belgian Federal, Flemish, and Walloon government agreements, Belgium's energy policy has taken shape, emphasising pragmatism, energy ...
