

Which companies have BMS battery management systems

Overview

Who makes battery management systems (BMS)?

By manufacturing battery management systems (BMS), the company experienced substantial revenue growth in 2021. Furthermore, LG Chem has been the preferred BMS provider for several top automobile manufacturers.

How important is a battery management system supplier?

The BMS market is anticipated to grow at a robust compound annual growth rate (CAGR) of 18.20% throughout the forecast period. As the importance of BMS is becoming more and more known, choosing a qualified Battery management system supplier is becoming more and more important.

Which BMS company has the best battery monitoring solutions?

Centralized BMS leads with a 45% share, offering cost-effective and high-performance battery monitoring solutions for automotive and industrial applications. Infineon and Texas Instruments are dominant players in this space. Modular BMS holds 35%, focusing on scalability and flexibility for renewable energy storage and military-grade power systems.

What is the global battery management system (BMS) market size?

The global Battery Management System (BMS) Market is expected to grow from USD 7.8 billion in 2023 to USD 18.4 billion by 2028, at a CAGR of 18.7% from 2023 to 2028. A battery management system is an electronic system that monitors and manages the operation and functionality of a rechargeable battery such as lithium-ion.
