

Which has more 5G base stations or communications in Germany

Overview

Does Germany have a 5G network?

The German Federal Network Agency allocated frequencies in the 3.7 to 3.8 GHz and 26 GHz bands for local 5G purposes, with more than 140 companies now able to operate their own local networks. There is no obligation for nationwide spectrum holders to enter into a national roaming agreement with local 5G network operators.

Which German telecom companies are launching 5G services?

Another German telecom company that has launched 5G services in the country is Vodafone. They turned on their first 25 base stations on July 16, 2019, added Berlin a month later, and currently cover 10 million people with the new network. Customers can use 5G with a compatible phone.

How many cities does Telefónica Germany have 5G?

They turned on their first 25 base stations on July 16, 2019, added Berlin a month later, and currently cover 10 million people with the new network. Customers can use 5G with a compatible phone. Telefónica Germany's O 2 launched 5G in five cities on October 3, 2020: Berlin, Hamburg, Munich, Frankfurt, and Cologne.

Which 5G providers will be used in Germany in the long term?

In the long term, all four German 5G providers will be used. N78 is primarily used to supply the cities, while N1 (2.1 GHz) is being promoted primarily by Deutsche Telekom for area expansion. Vodafone, on the other hand, relies on n28 (700 MHz) and n3 (1.8 GHz) for rural expansion.

Which has more 5G base stations or communications in Germany
