

# **Which is the largest energy storage power station in Tanzania**

## Overview

---

Who owns Tanzania power station?

The power station has an installed capacity of 2,115 megawatts (2,836,000 hp) and produces 5,920 GWh of power annually. The project, power station and dam are owned by and managed by the government owned Tanzania Electric Supply Company (TANESCO). Construction began in 2019 and was completed in 2025.

How much power does Tanzania have?

Tanzania's total power installed capacity is 1,938.35 MW as of 31st December 2023. Of the grid installed capacity of 1,899.05 MW, 1,193.82 MW or 63% is produced with natural gas, 601.60 MW or 32% is hydropower, 83.93 MW or 4% is produced with fuel, and 10.5 MW or less than 1% is obtained with biomass.

How many MW does Tanzania have?

Starting with Hydro power Plant producing just 21 MW in 1967 and expanding to significant projects including Julius Nyerere Hydropower Project producing 2,115 MW to reach total installed capacity of 3,404.20MW as at January, 2025. Tanzania continues to make significant progress in connecting citizens to electricity.

What is the energy sector like in Tanzania?

The Energy sector in Tanzania began decades ago, laying a foundation for what has now become a robust and transformative sector.
