

Wholesale 220v power station in Mozambique

Overview

Will gas-based generation increase in Mozambique in 2025?

According to BMI Research, gas-based generation is expected to increase by 18.1% annually through 2025. Mozambique's first utility-scale solar power plant, a photovoltaic plant with a capacity of 40MW, was commissioned in Zambezia Province in 2019.

Why is Mozambique a major energy exporter?

Mozambique is a net exporter of energy to countries in the Southern African Power Pool (SAPP) - South Africa being the largest importer. The government view energy exports as a key driver of the Mozambican economy, having passed a new electricity law that simplifies permitting and encourages IPPs activities.

What is the largest power plant in South Africa?

The largest power generation plant in the country is the Cahora Bassa hydro dam, operated by the government owned Hidroeléctrica de Cahora Bassa (HCB). HCB sells 65% of its existing generation to South Africa, and the remaining 35% is sold to the northern regions of Mozambique and to Zimbabwe.

Does Mozambique have a high energy demand?

Mozambique's domestic energy demand is increasing steadily and is expected to continue rising as the country industrializes. The Southern African Development Community (SADC) member countries are expected to have higher demand for power that could be met with Mozambican exports.
