

Wholesale of waterproof solar-powered containers for farm use

Overview

Why do you need a solar container?

Deploy power in hours Perfect for remote locations, construction sites, events, and emergency response situations. Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere.

How much solar can a 20 foot container hold?

20 foot containers can expand from 3,000W of solar up to 6,000W. 40 foot containers can expand from 3,000W up to 12,000W of solar in the future. We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

What can HC grow in a shipping container farm?

HC offers standard 40ft and 20ft shipping container farms, as well as smaller hydroponic containers such as hydroponic cabinets, grow boxes, etc., or more custom sizes. You can produce green fodders, strawberries, lettuce, mushrooms, weeds, herbs, microgreens, or most vegetables such as tomatoes by Installing different hydroponic planting systems.

Wholesale of waterproof solar-powered containers for farm use
