

Wind and solar energy storage acquisition

Overview

Who owns BP Wind Energy?

Upon completion of the acquisition, bp Wind Energy will be owned and operated as part of LS Power portfolio company Clearlight Energy, which focuses on renewable power generation in the U.S. and Canada.

Why did totalenergies acquire core solar?

In early 2024, TotalEnergies acquired a 2.5 GW solar and storage portfolio from Core Solar for an undisclosed amount. This acquisition aligns with the company's broader strategy to expand its renewable energy footprint in North America.

Why is the solar energy industry undergoing mergers & acquisitions?

The solar energy sector has experienced a dynamic landscape of mergers and acquisitions (M&A) over the past decade, reflecting the industry's rapid growth and evolution. M&A activities in this sector are frequent, driven by factors such as market consolidation, technological advancements, and strategic expansions.

Why did solar-plus-storage transactions increase in 2022?

United States: The U.S. witnessed a 2.5-fold increase in M&A activity for solar-plus-storage assets in 2022 compared to 2020, totaling 21 GW of transactions. This surge is attributed to strong economics of storage systems and incentives from the Inflation Reduction Act.
