Overview

Why should you use zeversolar inverters?

Solar reduces air pollution. As more people adopt solar into their home the need for gas, coal and oil power plants falls, reducing the harmful emissions they release into the air. Unlock the potential of solar energy with Zeversolar inverters. Maximise your solar power output and save on electricity bills.

Where are zeversolar inverters made?

All kinds of inverters from Zeversolar are manufactured and assembled in China - they are then dispatched to Melbourne branch in Australia via shipping. The main 4 types of inverters produced for Australia are;

Can zeversolar solar inverters be installed outside?

Their low weight enables installers to handle the inverters very easily. Thanks to the robust IP 65 housing and the wide temperature operational range, all of Zeversolar's residential solar inverters can be installed inside and outside. Ideal for large residential or small commercial applications, our Evershine TLC three phase inverter.
